

PRAMOD LAKSHAN

Associate Software Engineer | Full-Stack Developer
pramodlakshan380@gmail.com | +94 768 701 043 | [Linkedin](#) | [Github](#)

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with hands-on experience building production-grade web and mobile applications using the MERN stack, Spring Boot, and Flutter. Proven ability to design RESTful APIs, implement JWT authentication, integrate third-party APIs, and deliver responsive UI components. BSc (Hons) in Computing Science (Software Engineering) from Kingston University London. Actively seeking an Associate Software Engineer role to contribute to scalable, real-world software solutions.

TECHNICAL SKILLS

Languages:	Java, JavaScript (ES6+), C#, Dart
Frameworks:	React.js, Spring Boot, Node.js, Express.js, Flutter
Databases:	MongoDB, PostgreSQL, MySQL, Firebase Firestore
Tools:	Git, GitHub, Postman, VS Code, IntelliJ IDEA, Android Studio, Docker, Jenkins
Concepts:	RESTful APIs, JWT Authentication, OOP, SOLID Principles, MVC, DSA, SDLC, CI/CD pipeline
Cloud / APIs:	Firebase, GoogleAPI, AWS,

WORK EXPERIENCE

Intern Software Engineer | Gamage Recruiters

Sep 2025 – Mar 2026

- Developed and deployed full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js), following the full SDLC from planning through production.
- Built 15+ responsive UI components by translating wireframes into production-ready React interfaces using Tailwind CSS.
- Designed and implemented RESTful APIs with Node.js/Express.js, integrating JWT-based authentication and role-based access control.
- Optimized MongoDB schemas and CRUD operations, improving query performance and data integrity.
- Collaborated in a team environment using Git for version control, code reviews, and post-deployment bug resolution.

PROJECTS

Quality Management SaaS Platform (Ongoing) | Java, Spring Boot, React, PostgreSQL, JWT, Docker, AWS S3, REST APIs

(<https://github.com/pramodlakshan1/quality-management-system.git>)

- Developing a multi-tenant Quality Management SaaS platform for garment factories to manage quality inspections, defect tracking, employee workflows, and production monitoring.
- Designed role-based authentication and authorization using JWT and Spring Security for Admin, Quality Checker, Supervisor, and Factory Manager roles..
- Integrated AWS S3 cloud storage for managing garments Logos.
- Built dynamic feature enable/disable functionality based on active subscription plans.

Computer Accessories E-Commerce Platform | React.js, Redux, Spring Boot, Spring Security, PostgreSQL, JWT

(<https://github.com/pramodlakshan1/Full-stack-E-Commerce-platform.git>)

- Built a full-stack e-commerce site featuring product catalog with category filtering, shopping cart, flash deals with countdown timers, and integrated payment flow.
- Implemented secure authentication and authorization using Spring Security with JWT, supporting login, registration, and role-based access control.
- Developed an AI-powered customer support chatbot for product recommendations and an admin dashboard for full content management.

MirrorAI – Real-Time AI English Tutor | React, Node.js, Llama LLM, Speech-to-Text, Text-to-Speech

(<https://github.com/pramodlakshan1/ai-english-speaker.git>)

- Built an AI-driven English tutoring platform using a 'Digital Mirror' concept with voice-based interaction powered by Llama LLM.
- Implemented Speech-to-Text and Text-to-Speech for hands-free language practice with real-time grammar and pronunciation feedback.
- Engineered context-aware backend logic to dynamically tailor conversation topics based on user age and career field.

EDUCATION

BSc (Hons) Computing Science in Software Engineering

Kingston University London | ESOF Metro Campus, Colombo

Completed

Pearson BTEC HND in Computing – Software Engineering

ESOF Metro Campus, Negombo

Completed
